GETTING STARTED

The University of Pittsburgh has an array of professional development resources to meet your career development needs from the beginning of your training throughout your career.

This Center gives you the tools to easily organize and plan your professional development activities based upon your stage of doctoral or postdoctoral training.

MAPPING YOUR PLAN

A Developmental Approach to Professional Training (ADAPT)

Events and resources are color coded by ADAPT™ Stage.

The ADAPT™ Framework:

- Divides your professional development activities into manageable and progressive steps over the full span of your training
- Gives you an immediate starting point for your professional development
- Allows you to customize your career development efforts relative to your career goals

ADAPT™ STAGES

1. Orientation
2. Foundations
3. Learning Community
4. Career Specific
5. Career Transition

USING THE WEBSITE

dpcd.pitt.edu

The Pitt community uploads their events and resources to the website: dpcd.pitt.edu

To browse events and resources specific to your ADAPT™ stage of training, view the Events Calendar and Resource Listing.

Utilize the Center to access these professional development resources all in one place — from your computer or smart phone.
